OVER EIGHTY KILLED

Great Bridge Across the River
at Quebec Collapses.

EIGHT WORKMEN RESCUED

While It Is Estimated That More Than
Four Score of Other Laborers Were
Crushed to Death or Drowned When
the Big Bridge Fell.

Quebec, Aug. 30.—The great Quebec bridge collapsed late Thursday afternoon and now the vast mass of steel lies a tumbled wreck across the St. Lawrence channel. A careful estimate places the loss of life at eighty-four. The bridge fell at exactly 5:37 p. m., just as many of the workmen were preparing to leave. The accident was so terrible in its effectiveness in wiping out the lives of the men employed that very little is known as to the cause of the disaster.

The bridge was about a mile and a half in length and half of it, from the south shore to midstream, crumpled up and dropped into the water. Ninety men were at work on this section of the structure and the whistle had just blown at 5:37 for the men to quit work for the day when there came a grinding sound from the bridge in midstream. The men turned to see what had happened and an instant later the cry went up "the bridge is falling."

The men made a rush shoreward, but the distance was too great for them to escape. The fallen section of the bridge dragged others after it, the snapping girders and cables booming like the crash of artillery. Terror lent fleetness to the feet of the frightened workmen as they sped shoreward, but only a few of them reached safety before the last piece of iron work on the south shore was dragged into the river.

Eight Workmen Rescued.

Near the shore the wreckage of the bridge did not go below the surface of the water and eight workmen who remained above water were rescued and taken to the hospital at Levis.

The steamer Glenmont had just cleared the bridge when the first section fell. The water thrown up by the debris came clear over the bridge of the steamer. The captain at once lowered boats. The small boats plied backward and forward over the sunken wreckage for half an hour, but there was no sign of life. The twisted iron and steel had its victims in a terrible deathgrip. A few floating timbers and the broken strands of the bridge toward the north shore were the only signs that anything unusual had happened. There was not a ripple on the smooth surface of the St. Lawrence as it swept along toward the gulf.

All the men drowned were employees of the Phoenixville Bridge company and sub-contractors of Quebec and Montreal.

At 10 o'clock Thursday night sixteen bodies had been picked up and of the eight men in the Levis hospital two are not expected to live.

The Quebec bridge was begun about seven years ago and it was to be finished in 1909. Subsidies had been granted by the federal and provincial governments and the city of Quebec, and the estimated cost of the work was \$10,000,000.

The Phoenixville Bridge company of Pennsylvania had the contract for the construction of the bridge and was working from both sides of the river.

The southern extension of the bridge, which collapsed, was rapidly nearing the zenith of the immense steel arch which was to span the river.

Sixteen Bodies Recovered.

Of the ninety-two men working on the bridge, eight so far have been recovered. Of the other eighty-four sixteen have been taken from the water dead and it is feared that the great majority of the others have been either drowned or crushed by the falling girders.

The horror of the situation is increased by the fact that there are a number of wounded men pinned in the wreckage near the shore. Their groans and shrieks can be plainly heard by the crowds who have gathered at the water's edge, but nothing so far can be done to rescue them or relieve their sufferings. There are no searchlights available and by the feeble light of lanterns it is impossible to locate some of the sufferers.

There is scarcely a family in the village of St. Romuld and New Liverpool which has not been bereaved, while in some cases five and six men of a single family have been killed. From almost every house is heard the sound of lamentations of women. The men are gathered around the approaches to the wrecked bridge aiding in the efforts to rescue those who are still alive, or caring for the bodies of the dead as they are found.

The disaster caused much excitement here and is regarded as a national calamity.

The number of dead is variously estimated at from sixty to ninety men, but the few left of the men who were at work state that there were about ninety-two on the bridge at the time. Of this number eight have been taken out alive, so that in all probability the list of the dead will be about eighty-four.

Nothing is known of the cause of the disaster. There was nothing of an untoward nature reported that could give the slightest indication during the past few days that the huge structure was in a dangerous condition. It was built on such immense lines that it did not seem possible that it could break down. Whether it was caused by a defect in the material or by an error in the calculations of the engineers is a mere matter of conjecture. The one certain fact is that where Thursday afternoon there was almost the half of a bridge that was to have been one of the engineering wonders of the world, with a small army of mechanics and workmen, there is nothing now but a mass of fantastically twisted iron and steel wreckage.

The bodies rescued so far are in a terribly crushed state. Some of them are unrecognizable.

GENERAL STRIKE MAY OCCUR
Railroad Telegraphers May Go Out Within a Few Days.

New York, Aug. 30.—National President Small on Thursday said that he would not be surprised if there should be a general strike of railroad telegraphers within the next few days.

Daniel L. Russell, chairman of the board of striking telegraphers, said he had good grounds for the belief that the strike will be settled next week.

Thomas F. Pierson, Eastern vice president of the Order of Railway Telegraphers, said he did not believe a general strike of railroad telegraphers would be necessary and that he did not think the railroad companies would insist on the railroad telegraphers doing commercial business.

At a meeting of local broker operators here a committee was appointed to ask brokers who have not signed the new scale to do so. The committee is empowered to order strikes against all brokers who refuse.

BAD FIRE IN LOUISVILLE.

Courier-Journal Building Will Probably Be a Total Loss.

Louisville, Ky., Aug. 30.—The Courier Journal building is on fire. The entire fire department here has been summoned to the scene of the fire. The fire spread with remarkable rapidity. In a short time the third floor fell in.

At 1:10 a. m., although the firemen seemed able to confine the blaze to the building, the plants of the Courier Journal and Evening Times had suffered irreparable damage and there is no question but that the whole office building, half a block in length and five stories high, will be a total loss.

The fire started at the top of an elevator shaft at the north end of the building and is supposed to have been caused by defective insulation of electric wires.

The Morning Herald has offered the use of its plant to the Courier Journal. It is believed all persons in the building escaped.

TOO MUCH FOR THE KING.

British Monarch Disapproves of Performance at Marlenbad.

Marlenbad, Aug. 30.—King Edward has administered a rebuke to the singing of indecent songs in places of public amusement and his action which was taken publicly, has created intense excitement in Marlenbad.

His majesty entered a cafe chantant Thursday night and after listening to one or two items on the programme he walked out as a protest against the scandalous nature of the performance.

A Viennese company was playing. His majesty was followed by the Duke of Teck and other members of his suite and all the Americans and Englishmen present.

"This is horrible; appalling," said the king to a member of his entourage, and the accuracy of his description of the performance is admitted on every side.

TRAGEDY IN A DININGROOM

Hotel Proprietor Wounds His Wife and Daughter and Kills Himself.

Ocean Grove, N. J., Aug. 30.—In the presence of a number of boarders in the New Jersey House, a hotel of which he was the proprietor, R. S. Gravatt, forty-seven years old, shot and perhaps mortally wounded his wife, Irene; seriously wounded his nine-year-old daughter, Mollie, and then killed himself. Domestic troubles are said to have been the cause of the tragedy. The couple quarrelled in the hotel diningroom during the dinner hour. Gravatt pulled a revolver and began firing at his wife. She fell with a bullet in her leg and the child rushed between her parents to shield her mother and was shot in the thigh. When the child fell, Gravatt fired two other bullets into his own brain. Gravatt was well to do.

SWEDISH PRINCE BUSY

Beats Prince Henry's Record for Activity.

HIS VISIT TO CONEY ISLAND

Declares It was One of His Most Pleasant Experiences—Climbs a Sky Scraper and Is Entertained at an Elaborate Banquet.

New York, Aug. 30.—Prince Wilhelm of Sweden spent a busy thirty-six hours in New York. He beat the long standing record for activity in sight-seeing of Prince Henry of Prussia, as well as those of General Kuropki and Admiral Yamamoto. New York's most recent distinguished visitors. Prince Wilhelm has lunched with the president, shot the chutes and bumped the bumps of Coney Island, raced through all the most crowded streets in an automobile, climbed a sky scraper and Thursday night he sat as the guest of honor at the most brilliant and elaborate banquet New Yorkers remember. And he did all with enthusiasm and with a keen appreciation of everything that makes those who see him wish that they might be near when the young prince returns to Stockholm and relates his experiences to his father, Crown Prince Gustav, and his grandfather, "Good Old King Oscar."

A night visit to Coney Island pleased the prince, and the prince pleased Coney Island. "I never had such a good time before," said the prince when he returned to the Hotel Astor long after midnight.

It was 11 o'clock before the prince made his appearance at the Hotel Astor Thursday morning and soon after he entered an automobile and was driven to Roosevelt hospital, where Johan Pierson, a sailor of the Swedish cruiser Fylgia, on which the prince came to America, lies near to death. While returning to his ship, which is anchored in the Hudson river, Wednesday night Pierson fell overboard and struggled with the current and the tide before he was rescued. He is in a critical condition and the prince remained by his bedside for some time.

Climbs a Sky Scraper.

Leaving the hospital, the prince, accompanied by the Swedish minister and Madame Lagercrantz and other members of his party, was driven down to the Singer building now under construction. The party were taken to the twenty-ninth floor, the topmost completed landing of the building. An invitation to mount the ladder for another seven stories, where only the skeleton had been completed, was unhesitatingly declined. The prince was very much interested in the work. When the party left the building, Broadway and the nearby cross-streets were packed with people held in check by a large force of police. The crowds cheered the prince and he acknowledged their greeting with a wave of his hand.

Thursday night Prince Wilhelm was the guest at a dinner given at Sherry's by John Aspergren, president of the Swedish Chamber of Commerce, and Mrs. Aspergren. Covers were laid for forty-eight. Facing the seat of the guest of honor was the coat of arms of Sweden wrought in flowers. The walls of the banquetting rooms were hung with tapestries and intertwined the flags of Sweden and the United States.

Prince Wilhelm wore his naval uniform and the gorgeous uniforms of the officers of the Fylgia and of Swedish Minister De Lagercrantz and the other members of the Swedish legation staff added color to the scene.

The menu cards bore the international code flags which form the word "Welcome" and the crossed Swedish and American. Toasts to the president and King Oscar were given and then Mr. Aspergren offered the toast to the prince, to which the prince responded briefly.

KAUFMAN DEFEATS SCHRECK

Cincinnati Fighter Declares the Westerner Fouled Him.

San Francisco, Aug. 30.—Al Kaufman defeated Mike Schreck of Cincinnati Thursday night in the seventh round. Kaufman in that round struck Schreck a low blow and the Easterner fell to the floor. He claimed he had been fouled, but the referee refused to allow the claim and as Schreck was not on his feet in ten seconds the fight was given to Kaufman. A physician who at once examined Schreck decided that there was no evidence that a foul blow had been struck. Kaufman had a slight lead up to the time the fight ended.

Wisconsin Man Killed.

Dickinson, N. D., Aug. 30.—At South Heart, a small station west of this city, Peter Christen of Sparta, Wis., was instantly killed. A train crew was switching and making a coupling on a cattle car when Peter Christen fell from the steps of the caboose and was run over.

One Year..... Four Dollars
Strictly in advance.

Office in Dressen Building on 6th St., opposite the Post Office.

Entered at the post-office at Brainerd, Minn. as second class matter.

FRIDAY, AUGUST 30, 1907.

SOME of the farmers around Crookston are figuring on 600 bushels of potatoes to the acre.

ONE man who has been mentioned as a possibility in connection with the next republican state convention gives it out cold that he does not want to be governor of Minnesota—at this time. Congressman Steenerson says the national legislation in which he is interested is of more importance to him.

THE Buffalo Lake News says "fifty country newspapers have suspended publication in the last six months and half a hundred more are on the verge of the grave," the cause being ascribed to a raise in the price of printer's supplies. Those that are already dead and those that are dying will never be missed from the ranks. There is no demand for the paper started to espouse some local political candidate or to become the organ of some faction with a grievance. If there is no demand for the publication it must necessarily die from lack of patronage, which is the reason papers suspend rather than from the rise in price of paper. Who ever heard of a mercantile establishment going out of business because the wholesale price of calico or sugar was tilted, ordinarily they tilt back at the consumers and continue to do business.

LOCAL NEWS NOTES

Rent a 22 Rifle at King's. 23tf
Bicycles repaired at Hoffman's. 1tf
Frank Brand went to the twin cities this morning.
W. E. Evans, of Austin, Minn., is in the city today.
E. E. Parks, of St. Paul, was in the city last night.
S. F. Alderman went to Walker today on business.

Call and see the new electric flatirons at D. M. Clark & Co.'s. 40tf

Mrs. John Toms, of Enderlin, N. D., who has been visiting relatives here and at Dykeman left today for Staples to visit friends.

J. E. Goodman, master mechanic, and R. E. McFarlane, superintendent of bridges, were down from Duluth today on business.

E. J. Rhone buys old bicycles and furniture of all kinds. 64t4p

M. J. Reis is moving his dry goods stock into the Reilly building today. He will have a handsome store room when he gets it completed.

Mr. and Mrs. I. T. Dean returned today from Onigum, where they have been guests of Hon. and Mrs. John T. Frater for the past ten days.

James Harmon came down from Littlefork yesterday to visit his family. He is much in love with that country and the prospects of the town.

Ed. Romberg, who has been driving team for L. J. Cale has accepted a position with Brockway & Parker and will commence work next week.

Now will you smile! Rough dry at three, four and five cents a pound. Flat goods ironed for the same price. Laurel Laundry. 63tf

Dainty people with delicate tastes will find that the most delicious viands can be produced always with Hunt's Perfect Baking Powder and Extracts.

Fred Dunlop and Alex Thompson, engineers on the Lake Superior division of the Northern Pacific, came to Loerch today to be ready for the chicken season which opens Sunday.

Rev. C. V. S. Engstrom, who has accepted a call to the pastorate of the Swedish Mission church of this city, arrived today and will occupy the pulpit Sunday next, morning and evening.

D. M. Clark & Co., largest installment house in the city. Goods sold on easy terms. 233tf

Dr. Thabes and W. H. Cleary are going out chicken hunting and Cleary declares from the number of friends that Doc has promised chickens to he will have to back order about eight dozen.

Through an error in copying the list the carpenters and joiners union was omitted from the list of unions which will march Labor Day. Their position in the parade will be immediately behind the meat cutters.

See those weedless Bass Hooks at King's. Sure things. 23tf

Mr. and Mrs. Joe Harrison, of Neutral, returned yesterday from a visit with relatives and friends at Riceville, Iowa. He reports that there has been much rainy weather there and very little threshing or stacking has been done.

Oscar Carlstad, of St. Paul, who came here a few weeks ago suffering from consumption died last night. Efforts were made to get into communication with the man's relatives, but up to 1 o'clock this afternoon had not been able to do so.

In commenting on the purchase of a home for THE DISPATCH the Little Falls Transcript remarks that, "A newspaper owning its own building is more the exception than the rule and greatly attests to the business ability of the owners of Brainerd's only daily."

R. D. King is proudly exhibiting an ingenious system of syrup tanks and pumps which he has installed for his soda water business. The pumps give exactly the same amount of syrup each time automatically besides being more sanitary and more rapid to operate than the old style.

Lawn mowers repaired at Hoffman's. 1tf

Mrs. W. H. Cole, of Pelican Rapids, and Mrs. James Burke, of this city, returned today from Happy Land, near Littlefork, where they have been for two months visiting their husbands who are employed on the Minnesota & International extension. Mrs. Cole went to Pelican Rapids this afternoon.

Orino Laxitive Fruit Syrup is sold under a positive guarantee to cure constipation, sick headache, stomach trouble, or any form of indigestion. If it fails, the manufacturers refund your money. What more can anyone do. H. P. Dunn & Co. mwf-d-w

It will probably be an item of interest to the traveling public to know that beginning August 31st the North Coast limited, trains 1 and 2, will not carry passengers or baggage locally between points east of Moorhead on the Northern Pacific. The reason is given that the company does not wish to add more equipment to those trains and the through business is so heavy that otherwise it would be necessary. St. Cloud endeavored to be made an exception to the rule but were unsuccessful.

Major G. L. Scott, formerly Indian agent at Onigum, was in Brainerd today on his way to his home in Battle Mountain, Nevada. Major Scott, who is now on the retired list of the U. S. A., had been spending a couple of months with his daughter, Mrs. G. E. Marshall, of Cass Lake. He stated to a DISPATCH representative that he had visited the agency at Onigum several times since going to Cass Lake and that Indian Agent Frater was making a splendid record in the office and was a first class official and well liked.

H. Gilson in the Miracle block says someone told him the \$8 rent per month would make \$96 rent in a year, that \$10 taxes and \$1.50 insurance would still leave \$84.50 rent a year and that \$84.50 is more than 17 per cent of \$475. He says, too, that \$475 is just the price he is asking for a five room house in good repair, big stone cellar, lot 50x150 within 3 blocks of site for new post office. Why then leave your money in the bank at 3 per cent and the family without a home? He says, too, he has a whole lot of just such places for sale in this splendid city listed by parties who, like the rest of us, are never contented with what we have, no matter how blessed. 75t3

\$1.00 a year in advance is the bargain price of the Brainerd Weekly Dispatch. The newest newspaper published in this city.

RUNYAN TELLS HIS STORY

Defaulting Teller Testifies in Case Against Accomplice.

New York, Aug. 30.—Chester B. Runyan, the defaulting teller of the Windsor Trust company, had known Laura M. Carter only two weeks and had been in her company less than twelve hours altogether when he gave her \$15,000, according to his testimony at the trial of Mrs. Carter during the day. Mrs. Carter is charged with having received money which she knew to have been stolen. Runyan, the defaulter, was the principal witness against her. Under cross-examination Runyan stuck closely to the story brought out in direct examination.

When he finally decided to steal the money he intended to take enough to live on for two or three months. He had no thought of the future beyond that time. When he left the bank with the suit case stuffed with bank notes he had no idea how much money it contained. The packages of bills had been picked up at random and thrown into the suit case. The first time he knew the exact amount of his defalcation was when he counted the money in the presence of Mrs. Carter in the flat which she had engaged as a refuge for him.

Runyan said that he had planned to get away from New York by disguising himself in woman's clothing but this was interrupted by Mrs. Carter's betraying him. He hoped for clemency, he said, because he had tried to right the wrong he did. He declared that he bore Mrs. Carter no ill will. Although he had previously testified that she suggested to him that he get all the money he could from the trust company, he admitted under cross-examination that he had committed several forgeries in April and May.

Adjournment of the hearing was taken to Tuesday.

What a New Jersey Editor says

M. T. Lynch, Editor of the Phillipsburg, N. J., Daily Post, writes: "I have used many kinds of medicines for coughs and colds in my family but never anything so good as Foley's Honey and Tar. I cannot say to much in praise of it." H. P. Dunn & Co. mwf-d-w

Little Girl Killed by a Wagon.

St. Paul, Aug. 30.—A maltese kitten playing contentedly with a string was indirectly responsible for the death of Yetta Singleman, two years old, 158 Aurora, who was run over by a People's Ice company wagon on St. Peter street near Park avenue and instantly killed. The little girl had started across the street to get the kitten and ran under the rear wheels of the heavy wagon, which passed over her body.

Hay Fever and Summer Colds.

Victims of hay fever will experience great benefit by taking Foley's Honey and Tar, as it stops difficult breathing immediately and heals the inflamed air passages, and even if it should fail to cure you it will give instant relief. The genuine is in a yellow package. H. P. Dunn & Co. mwf-d-w

Storm at Iowa Fair Grounds.

Des Moines, Aug. 30.—A wind storm struck the Iowa state fair grounds here early in the day, causing damage estimated at \$100,000. A live wire was blown against the Knabenschue airship and captive balloon, setting fire to them and totally destroying both. The big tent of the International Harvester company was blown down and the exhibit ruined by heavy rain and fire.

Warning

If you have kidney and bladder trouble and do not use Foley's Kidney Cure, you will have only yourself to blame for results, as it positively cures all forms of kidney and bladder diseases. H. P. Dunn & Co. mwf-d-w

Texas Killed by a Bear.

Houston, Tex., Aug. 27.—Wagering that he could catch and hold a bear which was roaming about the streets of Richmond, Tex., Adam Kaulfer, a prominent young man of that place, laid hold of the animal and was killed.

WOMEN'S WOES

Brainerd Women are Finding Relief at Last

It does seem that women have more than a fair share of aches and pains that afflict humanity; they must "keep up," must attend to duties in spite of constantly aching backs, or headaches, dizzy spells, bearing down pains; they must stoop over, when to stoop means torture. They must walk and bend and work with "aching" pains and many aches from kidney ills. Kidneys cause more suffering than any other organ of the body. Keep the kidneys well and health is easily maintained. Read of a remedy for kidneys only that helps and cures the kidneys and is endorsed by people you know.

Mrs. L. Peterson, wife of L. Peterson, janitor of the Columbian block, Brainerd, Minn., says: "I have given Doan's Kidney Pills a thorough trial and believe that this remedy is the most reliable preparation that exists for kidney trouble. I used to suffer from constant dull aching in the small of my back and loins and other symptoms which plainly indicated a disordered condition of the kidneys. I decided to try Doan's Kidney Pills and got a box at H. P. Dunn & Co.'s drug store. After using a few doses I felt better and in a few days the pain and other symptoms of kidney trouble disappeared. I believe that Doan's Kidney Pills have given me a new lease of life, and am so confident that this remedy will do the same in all cases of kidney trouble that I am advising every sufferer I meet to use it."

For sale by all dealers. Price 50c. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.

A WORD

ABOUT TROUSERS

This branch of our business is a very important one and will admit of considerable advertising. Our stock is complete. We have a large assortment to choose from. We can fit and please you. The prices range from 75c to \$3.75. We give the most trouser value for the least money.

TIE PLANT IS NOT YET READY

Will Not Commence Operations for Several Weeks Yet at the Earliest

MEN ARE STILL GRADING

C. A. Akerman, Mechanical Engineer Here Putting Finishing Touches on Plant

C. A. Ackerman, representing the American Creosoting company, which constructed the tie preserving plant for the Northern Pacific railroad company, is in the city. Mr. Ackerman, who superintended the construction of the plant is here putting on some finishing touches to the concern after which he will go to Montana to erect another plant for the Northern Pacific. Mr. Ackerman was seen by a DISPATCH representative this morning and in speaking of the plant here he stated that it would be several weeks before it was put in operation, at the earliest. The company is enlarging its yardage there considerably above that at first intended and the work is not yet completed. While the well has been completed the pump has not yet been put in and there is neither coal or creosote on hand to begin work.

It is stated that Mr. A. Gibson, of Missoula, Mont., who will have charge of the two tie preserving plants is expected to arrive in this city within a very few days and it is very probable that after his arrival the work of getting ready for operation will be pushed much more rapidly than at present.

Letter to Mr. Adam Brown, Brainerd, Minn.

Dear Sir: Pay more for Devoe; be glad to. It is full-measure and honest. Paint is a watch-dog. How would you like a watch-dog that wouldn't watch from two to five o'clock in the morning. That's short-measure.

How would you like a watch-dog that had a way of wagging his tail at a burglar? That's false paint. The burglar is rain and snow.

Go by the name: Devoe lead-and-zinc.

Yours truly

F. W. DEVOE & Co.

New York and Chicago.

APPEALED TO DISTRICT COURT

J. M. Hayes Found Guilty of Cruelty to Animals and Fined \$20 and Costs --Took an Appeal

The case of the State of Minnesota vs. J. M. Hayes, charged with cruelty to animals, while trying to conquer a balky horse on Sunday last, was concluded this forenoon after occupying the time of the municipal court a day and a half. The case was closely contested by County Attorney Warner for the state and by M. E. Ryan for the defendant. After a number of witnesses were examined and the attorneys had exhausted the wells of their eloquence Judge Albright found the defendant guilty and imposed a fine of \$20 and costs. Mr. Ryan at once gave notice of appeal and the case will be retried in the district court.

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.

F. J. CHENEY & CO., Toledo, O.

Take Hall's Family Pills for constipation.

PRESIDENT NORTHPROP SPEAKS

Head of the University of Minnesota to Make Opening Address at the Minnesota State Fair

President Northrop of the University of Minnesota will make the opening address at the Minnesota State Fair this year on Monday, Sept. 2, at 11 a. m. The exercises will be in the great amphitheater. Dr. Northrop's addresses are always intensely interesting. He has a national reputation as an orator.

Later in the day the amusement program will be opened with Dan Patch as the central figure. The great pacer will attempt to lower his record of 1:55 made at the Minnesota Fair last year.

Meat Markets on Labor Day

All meat markets where union labor is employed will be open on Labor Day from 5 to 8 a. m. only; and there will be no delivery during the day.

By order of Butchers' Union.

F. J. LUDWIG, Pres.

IRWIN CHRISTLER, Sec. 7314w1

PETE CARDLE A HERO

Popular Brainerd Tonsorial Artist, Saves Man From Drowning in a Bath Tub Today

A. P. Cardle, the popular tonsorial artist in Frank Swanson's Fifth street shop, is in line for a Carnegie medal for saving a man from drowning. A young man, who shall be nameless, went into the shop this morning and had a hair cut and shave and then ordered a bath. The tub was got ready and a short time after he went into the room Pete heard a gurgling noise and went to investigate. The party had fallen asleep in the tub and as his body settled down into the water it rose until when Pete arrived on the scene it was commencing to enter his nostrils. Seeing the man's danger Pete valiantly pulled the plug and let the water out of the tub. After a nap of nearly an hour the boys turned the cold water on and rudely disturbed the sleeper's rest. He stated that he had not slept any for two days or nights and the warm water put him sound asleep.

In Our New Store

We are now back in our old stand in the new Reilly block and have opened up a large new line of up-to-date dry goods, notions, gent's furnishings and shoes. Although the store room just vacated is very small and not very attractive we did a nice spring and summer business and we wish to thank all our customers for their kind and liberal patronage and assure you that hereafter we will be able to serve you better and give you a larger variety of goods to choose from and at prices that will be the lowest in town.

Yours truly,

J. M. REIS.

Ten Years in Bed.

"For ten years I was confined to my bed with disease of my kidneys," writes R. A. Gray, J. P. of Oakville, Ind. "It was so severe that I could not move part of the time. I consulted the very best medical skill available, but could get no relief until Foley's Kidney Cure was recommended to me. It has been a Godsend to me." H. P. Dunn & Co. mwf-d-w

MUSIC AND DRAMA

A Messenger Boy

The best show of the season was the "Messenger Boy" by the George D. Sweet company in Flandreau last Friday night. The play is a good drama, well staged and faultlessly read, and free from objectionable features. Be it said to the credit of the management that not a single word or "tainted" language was uttered. The band and orchestra proved features of value. The overture called "The Circus" was well rendered and delighted the audience. --Flandreau, S. D. Herald.

At the Brainerd opera-house Monday, Sept. 2. Popular prices.

"The Time, The Place and The Girl"

The authors of "The Time, the Place and the Girl" can be credited with having succeeded admirably in showing in that original and amusing piece the delightful probabilities afforded by opportunity and the necessary conditions. And Adams and Hough do it, too, in such merry fashion that the audience glides through the current of the story with a joyous abandon which is akin to the pleasure of a fascinating waltz. At the opera house Wednesday, Sept. 4.

Robertson's Band

Robertson's band last evening was as good a band as has been heard here for some time and at no time did they fail to please their audience. The work was most excellent and the interpretation and rendition of the classic numbers was freely commented on by all who had the good fortune to hear them. The solos by Miss Toye, who has a most excellent contralto voice, were most excellent and with the full band accompaniment showed the power and quality of her tones. Taken altogether the concert was good from start to the finish and those who stayed away certainly missed it.

FARM, HOME AND GARDEN

There is much more winter wheat being sown in central and northern Minnesota this year than ever before. There have been several trials of it in this section the past season and the results have been very satisfactory. The yield has been much better than that of spring wheat and the quality is also much superior. At the Crow Wing county poor farm Steward McCullough reports a good yield. A field north of Pillager is reported to have yielded over 25 bushels per acre. While it would not probably be advisable for Crow Wing county farmers to go into it extensively, yet it would probably be wise to try it on a small scale, as spring wheat has been a failure for several years. In fact there is so little raised that one of the Brainerd dealers stated the other day that this was the last year he should bother with it.

The future of Crow Wing county seems to lie, in an agricultural way, in grasses and roots and their proper marketing and consumption. The tame grasses and tame hay raised in this county are fast winning a wide name and their proper utilization in feeding good milk cows is bound to come, and the sooner the better. In fact it is coming now. The Brainerd creamery reports that it has bought double the cream this year that it did last.

The hand separator and the creamery are revolutionizing the dairy business, and are putting more ready cash into the hands of the farmers of Minnesota than almost anything else. Aside from the saving of labor, the creamery has a distinct advantage over the sale of butter in that it gives a cash market for the produce of the dairy. The only way a farmer can secure a cash market for his dairy product or for his eggs or vegetables, for that matter, is to peddle them from house to house, which is unpleasant and should be unnecessary.

There is scarcely a week passes that some farmer does not complain to the writer that there is no cash market in Brainerd for his produce. They must, they say, take them to the stores and take trade, being compelled to suffer a discount if one needs a little cash to pay a doctor bill or settle his taxes. This would seem to be unjust, but on the other hand, under the credit system so prevalent here, the merchant must put them out on thirty to sixty days time, and the merchants claim that they are paying more than the city markets would justify to ship the produce and that they can not pay in cash the amount they do in produce.

Why is it that more women do not make their own vinegar? Even with Minnesota's own pure food law there is much difficulty in getting pure vinegar. It comes high, even when made of acids and utterly unfit for use. It would not seem that it ought to, however. A lady of the writer's acquaintance has been making all the vinegar used in pickling and about the house for the past year. Once get it started, and it can be started with a few apples ground up and strained, if in no other way, an unlimited amount can be made for almost nothing. After mother once forms three pounds of brown sugar will make two gallons of vinegar in from three to six weeks. Good vinegar can also be made of the skimmings of jelly and preserves and from the washings of dishes used in canning fruit. Such vinegar is more wholesome than any that can be bought except for fancy prohibitive prices and if taken in moderation will not hurt the most delicate stomach.

Men Past Sixty in Danger

More than half of mankind over sixty years of age suffer from kidney and bladder disorders, usually enlargement of prostate glands. This is both painful and dangerous, and Foley's Kidney Cure should be taken at the first sign of danger, as it corrects irregularities and has cured many old men of this disease. Mr. Rodney Burnett, Rockport, Mo., writes: "I suffered with enlarged prostate gland and kidney trouble for years and after taking two bottles of Kidney cure I feel better than I have for twenty years, although I am now 91 years old."

Advertise in THE DISPATCH—it pays.

Our Store is Full of Interest for Every Buyer of Dry Goods. Remember every item and yard of merchandise in the store is reduced below cost—Nothing is reserved.

A. E. MOBERG

218 South 7th St. Brainerd, Minn.

TO THE PUBLIC

A long, cold winter is close at hand and a shortage of fuel is predicted by the railroad company. We have been hustling all summer to get in shape to supply the large demand which is sure to be made upon us as soon as the cold weather sets in. We have been able to secure about 2000 cords of wood which, together with what we can still get, will no doubt help out with the wood question.

Regarding the coal problem--We are now in a position to take care of all orders both large and small, that we may be favored with. Our first order for 15 cars has just commenced to arrive and we shall have others coming just as fast as we can unload them. As all our coal is weighed on the city scales by the city weigh-master you need have no fear of getting short weight.

Thanking you one and all for past favors and hoping for a continuance of the same, we remain,

Yours truly,

H. H. HITCH CO.

STATEMENT BY HARAHAN.

Concerning His Controversy With Stuyvesant Fish.

Chicago, Aug. 30.—President Harahan of the Illinois Central arrived in Chicago Thursday afternoon and a few hours later issued a statement which to a certain extent explains the controversy between him and Former President Fish, which occurred at a meeting of the directors of the road in New York Wednesday. Mr. Harahan's statement follows:

"On my arrival in Chicago from New York, I found in the papers articles telegraphed from New York concerning an alleged occurrence reported as having taken place at a meeting of the board of directors held yesterday.

"My duty and honor will not allow me to discuss matters or occurrences, considered or taking place at the meetings of the board of directors, nor will my dignity permit me to positively discuss personal matters further than to deny the report which undoubtedly emanated from the same source as the reports appearing in today's newspapers and which have been frequently published, to the effect that the friendship which existed between Mr. Fish and myself was broken just prior to my election as president of the Illinois Central in November, 1906. The fact is Mr. Fish's actions had severed that friendship several years prior to that time.

"Reports have also been published to the effect that during the long friendship of Mr. Fish and myself frequent promotions were given me through the influence of Mr. Fish. As a matter of fact, my connection with the Illinois Central Railroad company began with my election as second vice president by the board of directors in 1890 and I continued in that capacity until my election as president by the board of directors in November, 1906."

TO PROTECT THE FORESTS

Secretary Wilson May Ask Congress to Enact Laws.

Washington, Aug. 30.—Secretary Wilson of the department of agriculture has resumed his duties at the department after an extended trip through the West and Northwest. He made particular observation of the conditions and care of forests on public lands.

Timber is being cut from both public and private lands to such an extent that in a comparatively few years great areas of forests which the secretary regards as essential to the agricultural welfare of America will practically have disappeared. It is not unlikely that Secretary Wilson will take up this question with the committee of congress at the approaching session with the view of securing the enactment of laws for the further protection of the forests of the country.

ENGINEER IS KILLED.

Passenger Train Crashes Into a Freight at New Richland, Minn.

New Richland, Minn., Aug. 30.—Southbound passenger train No. 4 on the Minneapolis and St. Louis railroad crashed into the rear end of a freight train here during a heavy fog and Engineer Ed Bergeaux was crushed beneath the engine. None of the other members of the train crew were seriously injured and the passengers escaped with a shaking up. Fireman Ed Eng was the most severely injured.
